Education

Hacettepe University

Aug 2024 – Present

Bachelor of Science in Electrical and Electronics Engineering, GPA: **3.78/4**

Experience

Student Assistant

Mar 2026 – Present

Department of Electrical and Electronics Engineering, Hacettepe University

- Selected to help students in Computers and Programming, and Introduction to Electrical Engineering lab courses.

Academic Peer

Oct 2025 – Dec 2025

Sustainable Teaching and Learning Center, Hacettepe University

- Reached out to 315+ students faculty-wide.
- Delivered 7 university calculus problem-solving sessions with a total attendance of 115.
- Created two comprehensive exam solution manual books of 275 pages by means of LaTeX.

Projects

Research: Effect of Coronavirus Disease on Lung Capacity | Spirometry

Oct 2022 – Jan 2023

- Conducted research for and submitted to the 2204-A High School Students Research Projects Competition held by the Scientific and Technological Research Council of Türkiye (TÜBİTAK), aiming to find the effect of the disease on lung capacity.
- Related the disease and lung capacity using the spirometer device, plotting respiration graphs by examining 29 people.
- Compared Tidal Volume (TV), Inspiratory Reserve Volume (IRV), Expiratory Reserve Volume (ERV), Forced Vital Capacity (FVC), Total Lung Capacity (TLC) values obtained from the examinations.
- Inferred that participants who recovered from the disease took in less air when taking a deep, forced breath, and therefore, only the IRV values confirmed the hypothesis.

Computer Simulation: Smart Farming System | Lua

Oct 2022 – Jan 2023

- Designed a system to simulate a greenhouse application for the 2204-A competition.
- Built a client-server architecture to manage user interactions and data flow, demonstrating principles of control systems.
- Utilized the physical constraints provided by the engine to handle the mobile components.

Developer Tools | Lua

- Developed a plugin for programmers seeking the data of their code.
- Developed a plugin to adjust the borders of user interface objects for proper scaling.

Skills

Languages: Turkish (native), English (upper-intermediate), French (pre-intermediate)

Programming Languages: Lua, C, Lua

Markup Languages: LaTeX, HTML

Computer Programs: Xilinx ISE, Dev-C++, LTspice

Activities

- Published *Learning Lua Programming Language Syntax (Sep 2023)*, reaching 14.0K+ views.
- Published *Basic Data Types in Programming and Their Usage Areas (Dec 2023)*, reaching 2.0K+ views.
